### FRONTEND ENGINEER

I'm a product-focused developer interested in building data-driven SAAS tools. I enjoy designing software for my own personal projects, where I can delve into UI/UX and accessibility. I'm a detail-oriented person who thrives in problem-solving work but also relishes creative tasks and outlets.

### EDUCATION

#### M.Sc. Digital Games

University of Malta,  
Distinction

#### BA. Hons. Philosophy

University of Malta,  
First Class

### EXPERIENCE
